

# PRICE COMPUTING SCALES

Cert. No.  
88-028A4

## DETECTO'S MOST VERSATILE PRICE COMPUTING SCALE

Whether you require basic price-per-pound calculations or complete product labeling, the PC series will fill your needs. The 54 possible, easy-to-use PLU (Price Look Up) keys provide instant recall of product prices for speedy calculation of total price and allow fast output to a printer.

### FEATURING:

- Easy-to-use price per pound feature with instant display of total price.
- Up to 99 product prices can be stored in memory for speedy recall along with product names when the optional label printer is used.
- Assign shelf life for each product, providing "Packed On" and "Sell By" dates printed on the thermal label.

**54 Possible Preset Keys**  
Simply place a product on the scale and press the product's pre-defined preset key to access stored data.

## PC Series Price Computing Scales

The PC Series features an alpha keypad to name each product for printing on the labels and is constructed of heavy steel guaranteeing top performance in the harshest environments.

The stainless steel commodity tray is simple to remove and clean. The bright red LED display is readily viewable by the operator and customer on both sides of the scale.

Whether you require a basic price computing scale or the added power of labeling, Detecto's PC Series scales can handle the task.

MODEL	CAPACITY	UPC CODE
PC-10	6 lb x 0.002 lb	809161100105
