

# R-8000G | Commercial Equipment

The Commercial High Speed Oven brings the latest advances to the art of speed cooking. Now foods not only cook faster, they look great and retain their natural juices and flavors. Baked goods are evenly browned and crisp. Convenience foods are prepared quicker than ever before to satisfy customer demand. The Basic Cook options take foods from raw to cooked 2 to 5 times faster than conventional ovens. Imagine a pork tenderloin, browned and juicy, that cooked in approximately 15 minutes!

## Features

### ■ Automatic Settings

include 60 preprogrammed settings for cooking convenience appetizers and snacks, meat, fish and poultry, as well as baked goods and a variety of raw foods to roast and grill.

### ■ Manual Options

under SelectaProgram™ include High Speed Grill with and without microwave, Speed Grill with and without microwave, Normal Convection, Speed Bake, Speed Roast and Express Defrost.

### ■ Display

3-line, 30-digit, lighted display makes using the oven simple by explaining every step and providing helpful hints and tips.

### ■ Microwave Options

include 11 power levels in SelectaPower™ as well as SelectaTime™.

### ■ Custom Help

provides access to 6 features that make using the oven easy, including Sound On/Off, Refresh Cycle, Counter Check, Clear Counter, Memory Check and Demo Mode.

### ■ Memory Options

allow the user to store 20 programs in memory for one-touch use later. Manual and automatic settings can be programmed into any of the memories.

### ■ Double/ Triple Quantity

provides the optimum cooking time for additional servings. The user can adjust the multiplier for 1-3 servings.

### ■ Oven Ready On/Off

allows the user to program the oven to maintain 300° F for 1 to 8 hours to shorten preheat time.
