Portion Blending System[®]

Advantages you can depend on

Frozen drinks made in the Vita-Mix are blended to a fine consistency... homogenized (left), not just stirred (right). You can taste the difference.

The PBS ice bin holds up to 19 liters of ice – meaning less frequent fill-ups! Uniquely designed ice bin keeps ice from solidifying.

Buttons click when pressed and correspond to the number of drinks being made. Countdown timer lets user see seconds remaining and keeps track of machine usage.

Pop-off splash guard allows for easy addition of mix or other ingredients.

Portion Blending System Features:

- **FAST!** One-button simplicity - programmed to make up to 4 drinks (1.8 liters) at one time. Or modify the pre-set programming to fit your needs-right from the touch pad.
- **PRECISE!** Holds up to 19 liters of ice and dispenses exact amounts of shaved ice by weight for a perfect drink every time.
- **VERSATILE!** Use any mix with ice plus any ingredients to create perfectly blended frozen drinks.
- **RELIABLE!** Designed and built for worry-free operation. No technicians or tools needed for adjustments or cleaning. No calibration, ever!
- **EASY!** Innovative electronics for easy operation.
