Elegant Cooking Solutions

Available with and without backsplash

CTE48B – 48" Electric Cooktop with backsplash (shown)
CTE48P- 48" Electric Cooktop

Available with and without backsplash

CTE36P – 36" Electric Cooktop without backsplash (shown)
CTE36B - 36" Electric Cooktop

CTE36B Cooktop with ACCSGP36 backsplash, WCL3645SSPC hood with chrome rail, and BS36 Warming Shelf.

Our unique slide-in design can overhang the countertop as shown, or can be notched into the countertop for a nearly flush appearance.

Versatility with European Styling

Electric Cooktops Features

- Ceramic glass surface, encased in a 1/8" thick, 304 series steel frame.
- Concealed, rapid start radiant electric elements with outputs ranging from 30 to 4400 watts – *the lowest and highest in the industry!*
- Sleek overall design with low profile to maximize cabinet space
- Available without a backsplash for flush installation in an island or peninsula, or with a continuous one-piece stainless steel backsplash for a more contemporary look against a wall.
