Place food product in entry chute

Select fry time on keypad or select programmable presets

Food is fried to perfection & automatically delivered to exterior receiving tray

MTI-5

Countertop Model shown with optional heat-lamp and accessories

Proudly made in the USA

Ventless & Automated Deep Frying System designed for maximum safety

The Autofry® MTI-5 is an excellent entry level model that offers compact design capable of producing up to 2 lbs of product per fry-cycle with the simple push of a button. Fully enclosed and automated, the Autofry® keeps employees safe from the internal cooking chamber while preparing food product to perfection each and every time.

Now you can expand your menu with deep fried favorites without the expense of hoods and vents. MTI's proprietary Simplifry™ technology offers multiple programmable pre-sets, standby mode and heat/time compensation intelligence.

Your source for *innovative* kitchen solutions
