

Electric Brussels Waffle Maker (Double)

WECIBB

Uniform temperature on both sides:

Our flat elements cover the whole surface of the irons, consequently making heating uniform.

Constant temperature throughout use:

Adequate available power and a control system built into the casting guarantee regular cooking of the waffles.

Heat insulation:

High temperature insulating material reflects the heat towards the casting.

Precision waffle irons:

- Steel cast irons surfaced in our workshops
- Accurate temperature control
- Heat insulation of the elements
- Stainless steel frame.

Ref.	Waffle type	Waffle size	NO. of waffles	Weight	Power
WECIBB	24 cavities (6 X 4)	4 3/4" X 7"	4	76.72 lbs	3600 W
Volts	Hz	Amp	Circuit breaker	Overall Size	
220 V	60	2 x 8.3	2 x 15	7 5/8" H (6" opened), 20 1/2" W, 17 1/4" D	

Cast iron, opening type: 180°

Cleanliness Trays

Perfect distribution of the liquid batter on both sides

- Luminous on/off switch
- Thermostatic control from 120 to 570 °F
- Heat indicator light
- Power supply lead for 16-amp socket - 220 V
- Each iron works separately
- Straight handles
- 2 independant plugs
