

Round Waffle Maker

Uniform temperature on both sides:

Our flat elements cover the whole surface of the irons, consequently making heating uniform.

Constant temperature throughout use:

Adequate available power and a control system built into the casting guarantee regular cooking of the waffles.

Heat insulation:

High temperature insulating material reflects the heat towards the casting.

Precision waffle irons:

- Steel cast irons surfaced in our workshops
- Accurate temperature control
- Heat insulation of the elements
- Stainless steel frame.

Ref.	Waffle type	Waffle size	NO. of waffles	Weight	Power
WECIAAO	24 cavities (6 X 4)	8"	1	48.50 lbs	1800 W
Volts	Hz	Amp	Circuit breaker	Overall Size	
208 V	60	8.3	15	4 5/8" H (6" opened), 24 1/2" W, 12 1/4" D	

Cast iron, opening type: 180°

Cleanliness Trays

Perfect distribution of the liquid batter on both sides

- Luminous on/off switch
- Thermostatic control from 120 to 570 °F
- Heat indicator light
- Power supply lead for 16-amp socket - 208 V
- Straight handles
