

DS Series Digital Price Computing Scales

Take the guess work out of pricing with Detecto's DS series price computing scales. Designed for portable use with a built-in rechargeable battery pack, the DS series is ideal for deli's, bakeries, candy and coffee shops, convenience stores, produce markets, hardware stores and more.

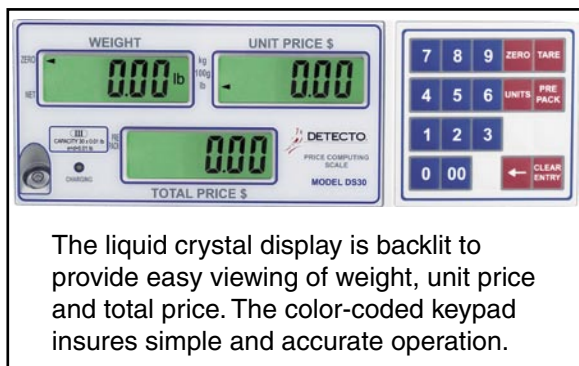

- Rechargeable battery pack and AC power cord
- Sleep mode for extended battery life
- Dust/debris cover for extended protection
- Easy-to-read, backlit LCD display
- Easy-to-clean, removable stainless steel platter
- Legal for Trade

Simple and Economical, Yet Tough and Portable

The built-in rechargeable battery supply not only monitors the battery life, but also recharges the battery while the scale is in operation ensuring no unexpected "down time". Pressing the PrePack key, after the unit price has been entered, retains that price for repetitive price-computing making the operator's job even more simple.

Adjustable, nonskid feet and internal bubble level ensure steady weighing. The smooth lines of the molded poly enclosure, lift-off stainless steel commodity tray and sealed membrane keypad make cleaning an easy chore. These scales include a standard 3 prong AC cord - no large AC adapter to take up valuable wall space. For added protection, the DS series includes a dust/debris cover and a water well under the platter to further prevent against moisture and accidental spills.

These scales meet all requirements of Handbook 44, issued by the National Institute of Standards and Technology and has been issued the Certificate of Conformance number 04-085.

Cardinal Scale reserves the right to improve, enhance, or modify features and specifications without prior notice.
